

Last name		First name		EVALUATION OF UNIT U61 - ACTIVITIES IN THE PROFESSIONAL ENVIRONMENT (INTERNSHIP REPORT)										Weight of the skill			
Skills assessed		Performance criteria				0	1	2	3	3/3							
C1 - COMMUNICATE															20%	0.00	4.00
C1.1	ÿ Get informed	<i>The procedures implemented are adapted to research and efficient.</i>										ÿ	1		1.00		
		<i>The information found is relevant to the need.</i>										ÿ	1		1.00		
		<i>The information collected makes it possible to analyze the operating or malfunctioning conditions of a piece of equipment.</i>										ÿ	1	0.00	1.00		
C1.3	ÿ Present	<i>The document produced is written in a readable, structured and appropriate way for the recipient. It respects: - the company's objectives; - company codes; - standardizations.</i>										ÿ	1	0.00	1.00		
C4 - ANALYZE															40%	0.00	5.00
C4.2	ÿ Plan and manage operations	<i>The load plan is coherent and optimized, it integrates all the constraints of human skills, material availability, etc.</i>											ÿ	1		1.00	
		<i>The load plan is able to adapt to any uncertainties in the process.</i>											ÿ	1		1.00	
		<i>Environmental, health and safety rules are respected.</i>											ÿ	1	0.00	1.00	
		<i>Supply delays and constraints are taken into account and managed.</i>											ÿ	1		1.00	
		<i>The defects noted during the intervention are taken into account, the customer is informed and the corrective actions are accepted.</i>											ÿ	1		1.00	
C6 - DEFINE AND IMPLEMENT PROFESSIONAL RISK PREVENTION MEASURES															40%	0.00	6.00
C6.3	ÿ Define and implement occupational risk prevention measures	<i>Occupational risks are identified from the design of work situations.</i>											ÿ	1		1.00	
		<i>The level of risk is defined in severity and frequency.</i>											ÿ	1		1.00	
		<i>The measures implemented make it possible to eliminate or reduce the risks without generating new ones for the operator and with respect to the human and material environment.</i>											ÿ	1	0.00	1.00	
		<i>After intervention, the equipment is in conformity.</i>											ÿ	1		1.00	
		<i>The intervention procedures are adapted to the measures taken to prevent occupational risks.</i>											ÿ	1		1.00	
		<i>The single document is updated.</i>											ÿ	1		1.00	

Indicate, with a character, the performance criterion(ies) that cannot be assessed
 If a cell appears in red in this column, it means that there is more than one value attached to the indicator, you must then choose which one to retain

Raw score obtained by automatic calculation if the number of criteria evaluated by capacity is at least 50%

! /20

	% indicators filled in
C1	100%
C4	100%
C6	100%

Final note

! /20

Rating x coefficient

#VALUE! /40

Global appreciation
