EVALUATION OF UNIT U4 - DIAGNOSIS OR IMPLEMENTATION (Evaluation carried out by the teaching team)									
Skills assessed		Performance indicators		0	1/3 2/3 3/3				
C2 - ANALYZE				40%	Note				
C2.2	ÿ Analyze a technical maintenance or adaptation situation	The information in the file is taken into account and understood.				ÿ	1	0.00	
		The elements extracted are appropriate to the situation.				ÿ	1	0.00	
		The possible consequences of the malfunction or adaptation on the whole system are taken into account.					ÿ	1	0.00
		The assumptions made are correctly prioritized.					ÿ	1	0.00
		The avenues of investigation are correlated with the hypotheses.					ÿ	1	0.00
C4 - ORGANIZE				20%	Note				
C4.1	ÿ Manage equipment and workstations	The choice takes into account the availability of equipment.					ÿ	1	0.00
		The organization of the workstation is consistent with the repair order and complies with the procedures.					ÿ	1	0.00
		Health, safety and environmental rules are respected.					ÿ	1	0.00
		Tools and equipment are identified, updated, compliant and stored.					ÿ	1	0.00
		The organization of the workshop and equipment respects the quality approach.					ÿ	1	0.00
		The upgrade proposals are relevant. Proposals for new tools and equipment meet a business need. Regulatory controls are carried out.					ÿ	1	0.00
C5 - REALIZE				40%	Note				
C5.1	ÿ Implement equipment, measurement or diagnostic tools, a procedure	The safety rules are identified, the conditions of implementation are listed, the public concerned is identified.					ÿ	1	0.00
		The material is prepared for use in optimal conditions. The choice of tools is appropriate. The implementation of equipment, measurement and diagnostic tools, procedures is carried out under the conditions provided.					ÿ	1	0.00
C5.3	ÿ Carry out tests, settings, apply procedures	The tests, measurements and settings comply with the requirements. Procedures are followed.					ÿ	1	0.00
		The approach is rigorous and logical.					ÿ	1	0.00
C5.4	ÿ Control, validate, an intervention, a method, a procedure	The chronological order and the stages are respected under the necessary health and safety conditions.					ÿ	1	0.00
		The results are consistent with the situation. Abnormalities are reported.					ÿ	1	0.00
		Validation criteria are identified.					ÿ	1	0.00
		The checks made it possible to qualify the solutions.					ÿ	1	0.00

Indicate by a character, the performance criterion or criteria that cannot be assessed
 If a cell appears in red in this column, it means that there is more than one value attached to the indicator, you must then choose which one to retain /20

Raw score obtained by automatic calculation if the number of criteria evaluated by capacity is at least 50 %

Scoring proposed by the teaching team to the jury

	% indicators filled in
C2	100%
C4	100%
C5	100%

Rating x coefficient

!	/20
#VALUE!	/60

Global appreciation
